## SUMMARY

Aspiring Front-End Developer and CSE (AI & ML) student at PES University with hands-on experience building full-stack web applications, AI-powered productivity tools, networking systems, and software projects. Experienced with React.js, JavaScript, Python, Node.js, FastAPI, databases, Git/GitHub, and cloud deployment. Passionate about building responsive, user-focused solutions and continuously learning modern technologies.

## EXPERIENCE

### Front-End Development Bootcamp Student (4 Weeks) PESU I/O — Bangalore, India

- Completed an intensive Front-End Development Bootcamp focused on HTML, CSS, JavaScript, and React.js.
- Built responsive web applications and implemented interactive UI components; gained hands-on experience with Git and GitHub.
- Engineered a portfolio project using React.js, HTML, and CSS, achieving full functionality across 100% of tested devices and browsers within a 4-week sprint cycle.

## PROJECTS

### Nexus AI – Student Life OS

Team Project • [github.com/Akshayshetty742/nexus-ai-os](https://github.com/Akshayshetty742/nexus-ai-os) • February 2026 – March 2026

- Built an AI-powered student productivity platform with task scheduling, smart calendar, auto-rescheduling, habit tracking, and study planning.
- Developed backend APIs using Node.js and Express and integrated Gemini AI to generate personalized study plans from syllabus input.
- Collaborated in a team using Git and a structured branching workflow. Tech: TypeScript, React, Node.js, Express, Gemini AI, Firebase.

### Multi-Agent AI Assistant

Personal Project • [github.com/Akshayshetty742/multi-agent-assistant](https://github.com/Akshayshetty742/multi-agent-assistant)

- Developed a full-stack conversational assistant for managing tasks, notes, and events through natural-language commands.
- Implemented specialized Task, Notes, and Event agents with a React frontend and FastAPI backend; built REST APIs and deployed on Google Cloud Run.
- Implemented interactive UI with dark/light mode and real-time response handling.

### Secure Multi-Threaded Leaderboard System

Computer Networks Project • [github.com/Akshayshetty742/CN-Jackfruit-Project-distributed-leaderboard-system](https://github.com/Akshayshetty742/CN-Jackfruit-Project-distributed-leaderboard-system)

- Built a secure client-server leaderboard system using Python socket programming with SSL/TLS encryption.
- Implemented multithreaded request handling and thread synchronization using locks to ensure data integrity.
- Load-tested with 100 concurrent clients, achieving approximately 6,500 requests/second after optimization.

### SDN Firewall using Ryu & Mininet

Computer Networks Project • [github.com/Akshayshetty742/sdn-firewall-ryu](https://github.com/Akshayshetty742/sdn-firewall-ryu)

- Implemented a Software Defined Networking firewall using Python, Ryu Controller, Mininet, and OpenFlow.
- Developed dynamic flow rules to allow or block communication between network hosts.
- Configured and tested virtual network topologies with centralized traffic control and firewall policies.

### JourneyHub – Travel Booking Web Application

Personal Project • [github.com/Akshayshetty742/TravelVista\\_React\\_Project](https://github.com/Akshayshetty742/TravelVista_React_Project) • May 2025 – August 2025

- Developed a responsive travel booking platform with interactive UI for browsing travel packages and pricing.
- Built backend services using Node.js and Express and integrated third-party APIs for booking and payments.
- Deployed the application using Netlify and managed development using Git and GitHub.

### PES Version Control System (VCS)

Systems Programming Project • [github.com/Akshayshetty742/PES1UG24AAM026pes-vcs](https://github.com/Akshayshetty742/PES1UG24AAM026pes-vcs)

- Implemented a lightweight version control system in C, inspired by Git.
- Developed features for repository initialization, staging, committing, branching, log history, and checkout.
- Used custom data structures, file handling, and object storage for efficient version management.

## EDUCATION

**B.Tech, Artificial Intelligence and Machine Learning** PES University • Sep 2024 – Sep 2028

**PUC 1st and 2nd Year (Grade: 11-12)** KLE Prerana PU Residential College, Hubli • Mar 2022 – Mar 2024

**6th-10th, CBSE (Grade: 10)** Jawahar Navodaya Vidyalaya (JNV)

## SKILLS

**Languages:** C, C++, Python, JavaScript, TypeScript

**Frontend:** HTML, CSS, React.js, Responsive Web Design

**Backend:** Node.js, Express.js, FastAPI, REST APIs

**AI / ML:** Gemini AI, AI Agents, Multi-Agent Systems

**Databases:** MongoDB, Firebase

**Cloud:** Google Cloud Run, Netlify, Vercel

**Networking:** TCP/IP, Socket Programming, SSL/TLS, OpenFlow, Mininet

**Tools:** Git, GitHub, VS Code, Linux
